

SITE PLAN TEMPLATE:

IDENTIFY:

- Location and size of all structures on property
- Location and size of all proposed structures
- Distance from all property lines to all structures
- Distance between all structures
- Front of property labeled with civic address

A large rectangular grid for drawing a site plan. The grid is composed of solid lines forming a coarse grid and dashed lines forming a finer grid. The grid is approximately 20 units wide and 30 units high. On the right side, there is a vertical double-headed arrow indicating the height of the grid. On the bottom side, there is a horizontal double-headed arrow indicating the width of the grid.

Note: Does not need to be drawn to scale, but does need to be accurate. Failure to submit a detailed site plan will result in the request of a Building Location Certificate from a Certified Manitoba Land Surveyor.

Signature of Applicant: _____

Date: _____

EXAMPLE SITE PLAN:

CIVIC ADDRESS: (33333 BLANK STEET)
